MISSION STATEMENT

Through a rigorous, comprehensive program of vocational/technical and academic preparation, as well as a progressive system of individual support and guidance, we strive to maximize the potential of each student for successful transition:

- *to* full time employment
- *to* the pursuit of higher education
- *to* a personal commitment of life-long learning
- *to* full participation as creative, responsible, productive American citizens

STATEMENT OF PHILOSOPHY

Successful education is an on-going, ever-changing learning process involving students, families, faculty, administrators and School Committee members, working together to provide a culture of excellence, responsibility, safety, and respect. This process fosters citizenship, social awareness, creativity, self-respect, and a desire to pursue further education.

Tri-County Regional Vocational Technical High School offers students opportunities for training and skill development that lead to rewarding employment, and provide a well-rounded education that inspires life-long learning. By developing students' abilities through diverse curricula, including a wide range of instructional settings, Tri-County strives to bring students to their highest potential in the attainment of academic and vocational-technical excellence.

Tri-County encourages students to engage in individual, group, and team activities by offering a variety of co-curricular and extra-curricular activities. In conjunction with the academic and vocational-technical curricula, these activities foster productive and responsible citizenship in today's technical society. To support this philosophy, Tri-County maintains the following goals:

- To ensure that students possess the ability to access information, demonstrate interpersonal skills, and use resources and technology.
- To promote literacy, critical-thinking, intellectual curiosity and life-long learning.

-
- To develop citizens who demonstrate social responsibility, responsible decision-making skills, a sound work ethic and a sense of community.
 - To prepare students for entry into the workforce and/or the pursuit of post-secondary education.
 - To encourage incoming students to explore various traditional and non-traditional areas.
 - To integrate learning between academic and vocational areas.
 - To provide a safe and cooperative learning environment for all students and staff.
 - To provide cooperative education programs, adult education and extra-curricular activities.
 - To promote parental involvement and communication.
 - To provide meaningful opportunities for professional and staff development.
 - To provide extensive student support services.

GOALS

1. The student as a worker should possess the following abilities:

- **Accessing information** - acquiring, organizing, and maintaining data as well as interpreting and communicating information.
- **Demonstrating interpersonal skills** - working as a member of a team, teaching, and servicing others, collaborating, leading, negotiating, and working with people from culturally diverse backgrounds.
- **Using resources** - allocating time, money, materials, space and human resources
- **Understanding systems** - operating within social, political, and organizational systems, monitoring and correcting performance, and designing or improving systems.
- **Using technology** - selecting and applying technologies to specific tasks including the use of computers and other emerging technologies to process information.

2. The student as lifelong learner should possess the following attributes:

- **Literacy** - reading, speaking, listening, writing, and mathematics.
- **Thinking** - the ability to think creatively and critically, make decisions, and solve problems.
- **Intellectual curiosity** - interest and enthusiasm for learning- scientific and technological literacy.
- **Versatility** - the ability to express oneself in more than one medium

3. The student as a citizen should demonstrate:

- **The ability to make decisions** on ethical grounds through the analysis of the practical and ethical consequences of alternative decisions
- **Personal qualities** including a sense of individual self-esteem and community responsibility, sociability, self-management, and integrity
- **Social responsibility** - to understanding the consequences and effects of one's action
- **A work ethic**- and understanding that work gives dignity and meaning to life as well as contributing to the good of the community
- **Knowledge of cultures & languages** - understanding and appreciating different world cultures, languages, and their interrelationships.
- **Citizenship** - being informed on public issues and voting - understanding the global economy.
- **A sense of community** - development of a desire to contribute one's time and effort to the good of the community.

PROGRAM SERVICE POLICY

Staff and community members may avail themselves of the services of the school's vocational and technical programs to the extent that:

1. They have the permission of the Vocational Director (in writing).
2. Job falls into curriculum.
3. Job is not for industry.
4. They do not enjoy financial gain.
5. Job is not too complicated, thereby diminishing student interest.
6. Job does not involve the constant and long-term use of shop equipment and tools.

Tri-County is not responsible for any item(s) brought into the school by staff members, students, or district residents. Anyone taking personal property to school for repair or for any reason does so at his or her own risk, bearing in mind that the instructor or school district cannot be held culpable for loss or damage.
